

PROFESSIONAL PROFILE

Early career data analytics and information technology professional with a foundation in data analysis, Python, SQL, databases and programming. Experienced in working with structured data through data science projects and practical training, with knowledge of Excel, Google Sheets and relational database concepts. Holds a University of Venda Data Science qualification, AWS Certified AI Practitioner and Google AI Essentials certification, with knowledge of AI and machine learning fundamentals. Analytical, detail-oriented and committed to using data to solve problems and support informed decision-making.

CORE STRENGTHS

- Problem Solving
- Programming
- Database Fundamentals
- Debugging
- Attention to Detail
- Team Collaboration
- Analytical Thinking
- Data Analysis
- Web Development
- Responsive Design
- Communication
- Fast Learner

Data Analysis Python, Excel, Google Sheets, Data Analysis Fundamentals

Databases SQL, Database Management, Relational Database Concepts

Programming Python, JavaScript

AI & Cloud AI Fundamentals, Machine Learning Fundamentals, Generative AI, AWS Fundamentals

Other Git / Version Control (learning), Information Systems

TECHNICAL SKILLS

Programming	Python
Web	HTML5, CSS3, JavaScript, React (practice)
Data	SQL, Excel, Google Sheets, Data Analysis Fundamentals
Databases	Database Management, Relational Database Concepts
Other	Networking Fundamentals, Git / Version Control (learning)

EDUCATION & TRAINING

Richfield College — Diploma in Information Technology (Current)

Relevant coursework: Information Systems, Database Management, Programming, Systems Analysis, Networking.

University of Venda — One-Year Data Science Programme

PRACTICAL PROJECTS

Python Data Analysis — Used Python to manipulate and analyse structured data as part of data-science projects.

Database Project — Designed relational databases and applied database-management concepts to organise data and maintain data integrity.

Data Analysis Practice — Worked with data-analysis concepts using Python, Excel and Google Sheets to develop practical skills in working with and interpreting structured data.

Portfolio Website — Designed and developed a responsive website as a practical technology project.

CERTIFICATIONS & TRAINING

- Google Digital Marketing & E-commerce Certificate
- AWS Certified AI Practitioner
- University of Venda Data Science Certificate / Programme
- Google AI Essentials Certificate — completed five-course
